Arms and Collection Devices

SUCTION COVERS

Areas of Use

- The OBERA suction covers are perfect for capturing dust, smoke, and gaseous pollutants directly at the source

Ideal for

Dust

Smoke/odors

VOCs

Oil mist

Features

- The airflow in the arm is not disturbed. Pressure losses are reduced
- Large flexibility
- Extraction as close as possible to the source

Benefits

- Can be connected to a capture network or a portable dust collector

Options

- Lighting
- Closing valve
- Table or bench support
